**INDUSTRY:** Packaging - Pharmaceutical

**APPLICATION:** Product Packaging/Filling

**PRODUCTS:** SLE-20

**Details:** Oil Free Air required on a new packaging/fill line.

The New packaging line fills and packages pharmaceutical products. Pneumatics are used throughout the new packaging line for precision valves, cylinders, controls, and blowing. Low dewpoint dryers, high micron filtration, and oil free air prevent the process and product from contamination via the process.

The SLE-20 provided “N+1” redundancy, line specification CFM at pressure, and low noise in a compact affordable package at “Point of Use”.
