CUSTOMER: Aircraft Mfg. (Student Training Center)

APPLICATION: Lab Air

PRODUCTS: SLTE-20D-120-T460

- The SLTE-20D Duplex scroll package replaced a 20HP Ingersoll Rand reciprocating Tank Mount Duplex package. The customer wanted a new system which was more energy efficient, dependable, and quiet.
- The unit is installed in an equipment room adjacent to one of the large training areas, noise was a key factor.
- AIAE duplex control offered a cost effective controls solution extending the maintenance interval of the scroll pumps based on the customer's run/air usage profile.
